“What an amazing venue and wonderful people to help guide us through our most amazing Wedding day. From the first moment we met Jam at Wimborne Town Hall we knew we were in very safe hands her expertise , warmth and professionalism sealed our decision to look no further than Wimborne Town Hall as the venue for our Wedding ceremony. From the plushiest of silver grey carpets to the not one but three sparkling crystal chandeliers the chamber room was flooded with beautiful natural light from the Georgian windows making this one very special place to get married. After the ceremony we had a chilled champagne reception thanks to Jam putting the bottles on ice in the delightful and charming Physics garden.

All our guests marvelled at the fabulous venue and the ease and friendly manner of the Registrars who helped make our Wedding very special indeed. If you are looking for an exquisite place to host your forth coming nuptials whether it's for a small and intimate gathering or something a little larger, then look no further than Jam and her colleagues at Wimborne Town Hall.”

“Such a sweet venue for a wedding in the middle of Wimborne!!

My partner and I had our intimate wedding ceremony at the Wimborne town hall and it was simply perfect.

Before the day we were in communication with Jam. She is truly one of the loveliest women and she made the whole experience 5 stars. She showed us the venue and our options before the day and on the day she acted as a coordinator for everything from music to guest to the champagne toast after the ceremony!

Although our celebration was in October and we had planned to do the ceremony inside, on the day the sun was shining so we decided to change plans last minute and have the ceremony in the Jubilee gardens on site. Jam coordinated everything and it was absolutely stunning. Definitely consider using the Town Hall if you are having a smaller wedding in Wimborne! “
